

## Enporion Offers A Full Suite of Procurement Services

Enporion offers a suite of sourcing solutions, collectively called "Supply Chain Manager<sup>®</sup>", to enable e-procurement and electronic order management, supporting all internal purchasing functions from PO creation to invoicing and settlement.

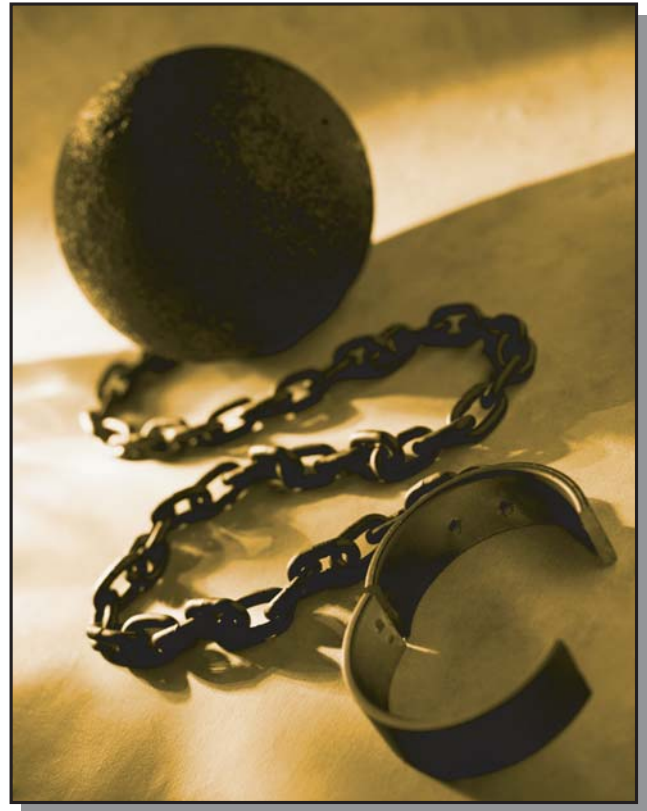

In addition to Supply Chain Manager, Enporion offers the following services, providing a one-stop solution for your company:

**Aggregated Contracts** - Volume purchasing provides leverage for buyers seeking service enhancements or reduced pricing. Aggregating your company's purchasing volume with other like-minded buyers increases the opportunity to meet these objectives.

**eRFX** - Utilizing Enporion's electronic request for proposal service provides your company with a tool to manage your RFP process. We provide a single documented process, customized to meet your requirements, for managing your RFPs. A central repository provides one location to store all documents and correspondence related to you RFPs. Enabling our eRFX service will help your company meet Sarbanes Oxley regulatory requirements.

**Customized Solutions for your Direct and MRO/Indirect Materials** - Enporion provides solutions to meet the needs of your Direct and MRO/Indirect e-procurement issues from requisition to payment. Utilizing the suite of services Enporion provides will make managing the procurement of these products and services easier, faster, and more efficient.

Our services can be customized to meet your needs. You may choose to implement all or a portion of our services based upon your business needs. Enporion wraps these services with world-class customer support to help you every step of the way.

**Customer Specific Agreements** - Utilize Enporion's platform to e-enable your existing supplier agreements.

**Dynamic Commerce** - Enporion provides your company with a full-service auctions solution. This service can be used to complete one-time purchases, repetitive purchases, products or services. Customers have experienced 15% average savings from the use of this service. Identify your requirements and Enporion will do the rest.

**Business Support Services** - Enporion provides your company with a suite of support services. Customer support to address your technical and service questions, connection services to electronically enable you and your suppliers, catalog services to build and manage your electronic catalogs.
